KINCROME

BUILT FOR HERE

We've been designing, engineering & selling hand tools trusted by trade professionals around Australia for over 5 decades. We're Australian family owned and operated too, meaning we know the country like the back of our hand. Just like our hand tools, Kincrome's range of PT18 18V Power Tools are designed and developed specifically for the trade professional.

A family owned Australian business

FREQUENTLY ASKED QUESTIONS

How exactly does the Create a Kit program work?
Simply spend $489 or more on any Kincrome PT18 Skins in a single transaction, and you will immediately qualify for a free bonus.

What free bonus items can I choose from?
You get to pick the power setup you need. Choose between a Starter Pack (includes 1 x 5.0Ah Battery and Charger) OR a Power Pack (includes 2 x 5.0Ah Batteries).

How do I claim my free gear?
You get it instantly. There are no online forms or shipping delays—simply pick up your free bonus in-store at the shelf when you make your qualifying purchase.

Where can I take advantage of this offer?
The Create a Kit promotion is available at any participating retailer nationwide that sells Kincrome PT18 tools.

What products count toward the $489 minimum spend?
The $489 must be spent exclusively on PT18 Skins (bare tools). Batteries, chargers, accessories, pre-packaged kits or other Kincrome products do not count toward the threshold.

Can I claim more than one bonus if I spend over $978?
There is a limit of one free bonus per invoice. However, if you are making a larger purchase, you can simply split your skins across multiple invoices to claim multiple bonuses.

How long is this promotion running?
You have plenty of time. This program is running continuously until December 31st, 2027.

Can I combine this with other Kincrome promotions?
Absolutely. You can stack this offer with our ongoing Kincrome tool redemption program to maximize your rewards on the same purchase.

Who do I contact if I have an issue with my bonus?
If you have any questions or issues at the time of purchase, simply speak to the staff at your store of purchase—they will sort you out on the spot.

KINCROME PTA LEAVES OTHER BITS IN PIECES

The Kincrome Power Tool Accessory range (PTA) has been specifically designed in Australia to suit both the professional and DIY user.

Our sets feature the most commonly used bits in a variety of different lengths ranging from 25mm up to 150mm. All sets come in an Australian designed metal tin and feature secure locking bit racks that are clearly marked for easy identification.

Kincrome PTA bits are manufactured from S2 steel and feature precision CNC machined magnetic tips, oversized torsion zones to improve bit performance and lifetime and our unique bit type colour coding system.

We offer a full range of accessories including Nutsetters, Socket Driver adaptors and Magnetic and Quick Release Magnetic bit couplers all in a variety of sizes from 50mm up to 150mm.

KINCROME PTA DRILLING RANGE

DRILLING RANGE

The Kincrome Power Tool Accessory Drilling Range range (PTA) has been specifically designed in Australia to suit the trade professional, whilst still being great for the DIY user.

Our Spiral Step Drills are made from M2 high speed steel with a TiAlN coating for clean, consistent cuts in a professional setting. They are good for drilling steel, plastic & fibreglass. Available in either a 3 flat shank or 1/4" Hex drive for your specific application.

Our HSS Drill Bit Sets are available in a variety of different configurations depending on your needs & come in a handy storage case for protection and storage on the worksite. Manufactured from M2 high speed steel & featuring 135° Split point tips to reduce wandering when drilling you can expect consistent drilling when you need it, day in day out.

Our Bi-Metal Hole Saw Sets are available in a couple of different configurations depending on your specific needs. They come in a sturdy plastic protection case for easy and safe storage on the worksite. Manufactured from M42 Bi-Metal Cobalt High Speed Steel & featuring a quick release arbor & large ejection ports, these are made for drilling consistent clean holes. They are good for drilling into steel, plastic or wood, making them a valuable tool for all sorts of drilling.
